

T40 AR Vault

SAFE SECURE ACCESSIBLE

When opening the T40-AR Vault there are two ways to access a stowed item. The vault can be locked and unlocked using a key or the key pad.

- ✓ When using a key, the vault can stay unlocked during hours of duty to allow for fast easy access, at the push of a mechanical button. When your vehicle is left unattended you may secure your weapon or cargo with the simple turn of a key.
- ✓ For keyless access, use the keypad. Simply enter a 1-6-digit combination and open the vault. To change the combination on the keypad first open the vault and push the reset button, then you may change the combination to any number from 1-6 digits. The Gun vault can be opened using the keypad even when the key is in the locked position.
